

Chilliwack School District  
*"Partners In Learning"*

## **POLICY 526**

---

### **ALLERGIC SHOCK (ANAPHYLAXIS)**

The Chilliwack School Board is responsible for providing a safe environment for the children in our schools. Whereas some children suffer from life-threatening allergic reactions, the Board expects that school administrators, teachers and support staff be informed and aware of the threat of allergic shock. They should know measures to reasonably avoid the allergens for affected children and be able to respond to an allergic reaction emergency.
